

# OSBORNE REFRIGERATORS

Designed AND manufactured  
exclusively in the UK

## Glass Froster / Freezer Cabinets

Osborne Refrigerators Ltd have been established at our West Sussex base for 60 years and we are the leading British manufacturer of refrigerators designed for the chilling and storage of wine and cold beverages. As well as our traditional range of cabinets, which are specified by leading breweries, drinks manufacturers and leisure companies across the world, we also produce a range of high quality cabinets ideal for use in retail environments.

All our refrigerators use CFC free polystyrene insulation and can be efficiently recycled at the end of their life. They are also available with a choice of refrigerants.

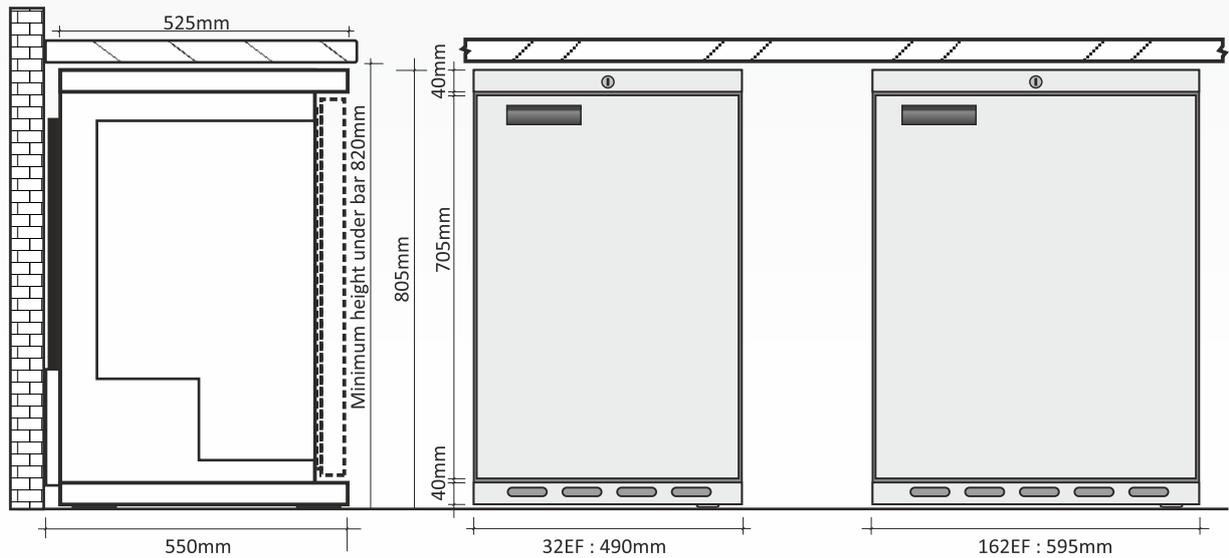

The Osborne range is always evolving, due to our commitment to constantly improve our products and also in response to specific customer requirements. We have built an enviable reputation for the quality and reliability of our refrigerators and we will never stop working to maintain that reputation.

Our reduced height (805mm) *eColdN* freezer cabinets are available in two widths, 490mm and 595mm. They are designed for either the storage of frozen foodstuffs, or for use as a glass froster. They are manufactured from stainless steel, with a stainless steel interior. The cabinets use a cold-wall refrigeration system and the maintenance-free condenser is fan-cooled for increased efficiency. Insulation is environmentally friendly polystyrene and the refrigerant is R600a hydrocarbon. Standard solid doors are hinged and lockable. These models are perfect companions to the reduced height *eCold* range of display fridges.
