

OSBORNE REFRIGERATORS

High Capacity Display Chiller

Designed AND manufactured exclusively in the UK

The new *eCold* range from Osborne Refrigerators is designed to be good to your pocket as well as the environment. Low-voltage fans and LED lighting put very little waste heat into the cabinet and improved insulation and efficient compressors maximise cooling performance while using less energy. *eCold* cabinets are also designed to be virtually maintenance-free, with no fluorescent tubes to change, and condensers that never require unblocking.

Osborne Refrigerators Ltd have been established at our West Sussex base for more than 50 years and we are the leading British manufacturer of refrigerators designed for the chilling and storage of wine and cold beverages. All our chillers are also suitable for storing foodstuffs. As well as our standard range of cabinets, which are specified by leading breweries, drinks manufacturers and leisure companies across the world, we also produce a range of high quality cabinets designed specifically for the refrigeration of milk for coffee machines.

All our refrigerators use CFC free polystyrene insulation and can be efficiently recycled at the end of their life. They are also available with a choice of refrigerants.

The Osborne range is always evolving, due to our commitment to constantly improve our products and also in response to specific customer requirements. We have built an enviable reputation for the quality and reliability of our refrigerators and we will never stop working to maintain that reputation.

Details

Models 420E and 430E are high capacity undercounter cabinets with an end-mounted unit for easy maintenance. Designed primarily for the storage and display of bottled beverages, these cabinets are also suitable for foodstuffs. Manufactured from rust resistant zinc-coated steel with a hard wearing powder-coat finish or brushed stainless steel, the interior is beaten aluminium or stainless steel. Insulation is efficient, ozone friendly polystyrene and the refrigerant used is R600a. The doors are double glazed and hinged. Black or silver finish is standard but can be supplied in a wide variety of RAL and Pantone colours (minimum quantities may apply) or stainless steel.

High Capacity Undercounter Cabinet Range

	Model 430E	Model 420E
H (mm)	905	905
W (mm)	1560	1110
D (mm)	570	570
Shelves (per door)	3	3
Capacity (ltr)	393	257
Technical		
Refrigerant	R600a - 120g	R600a - 90g
Power Rating	140W	120W
Energy Rating (glass/solid)	D / B	D / B

Features

- Fan assisted evaporator for rapid cooling
- Fan assisted condenser for efficient performance
- Automatic defrost and re-evaporation
- Digital temperature control
- Low-energy LEDs give excellent product lighting
