

# OSBORNE REFRIGERATORS

Countertop MM10 & MM9

Designed AND manufactured exclusively in the UK

The *eCold* range from Osborne Refrigerators is designed to be good to your pocket as well as the environment. Low-voltage fans and LED lighting put very little waste heat into the cabinet and improved insulation and efficient compressors maximise cooling performance while using less energy. *eCold* cabinets are also designed to be virtually maintenance-free, with no fluorescent tubes to change, and condensers that never require unblocking.

Osborne Refrigerators Ltd were established in West Sussex more than 60 years ago and we are the leading British manufacturer of refrigerators designed for the display and storage of wine and cold beverages. As well as our display cabinets, which are specified by leading breweries, drinks manufacturers and leisure companies across the world, we also manufacture stainless steel solid door catering chillers and a range of specialist milk cabinets.

All our refrigerators use hydrocarbon refrigerant (alternatives available for some models), CFC free polystyrene insulation and can be efficiently recycled at the end of their life.

The Osborne product range is always evolving, due to our commitment to continuous improvement and also in response to specific customer requirements. We have built an enviable reputation for the quality and reliability of our refrigerators and we will never stop working to maintain that reputation.

## Details

The MM10, MM9 & MM9 SLIM are compact chillers, ideal for countertop display where space is limited. Designed primarily for the storage and display of bottled beverages, these cabinets are also suitable for foodstuffs. Both models are manufactured from rust resistant zinc-coated steel with a hard wearing powder-coat finish or brushed stainless steel, the interior is beaten aluminium or stainless steel. The interior is fan assisted for enhanced chilling and the condenser is maintenance-free for efficiency and ease of use. The insulation is environmentally friendly polystyrene and a choice of refrigerants is available. The door is double glazed or a solid door is available as an option. Standard painted finishes are black, brown or silver but cabinets can be supplied in a wide variety of RAL and Pantone colours (minimum order quantities apply).

# Model MM10, MM9 & MM9 SLIM

## Features

Fan assisted evaporator for rapid cooling  
 Maintenance-free condenser  
 Automatic defrost and re-evaporation  
 LED lighting & low voltage fans  
 Digital temperature controller  
 Double glazed door

## Options

Solid door  
 Choice of colours  
 Stainless steel exterior and/or interior  
 Stainless steel door (frame/solid)  
 60Hz electrics  
 R134a refrigerant
