OSBORNE REFRIGERATORS

CM15

OSBORNE
BOGNOR REGIS
ENGLAND

Designed AND manufactured exclusively in the UK

The *eCold* range from Osborne Refrigerators is designed to be good to your pocket as well as the environment. Low-voltage fans and LED lighting put very little waste heat into the cabinet and improved insulation and efficient compressors maximise cooling performance while using less energy. *eCold* cabinets are also designed to be virtually maintenance-free, with no fluorescent tubes to change, and condensers that never require unblocking.

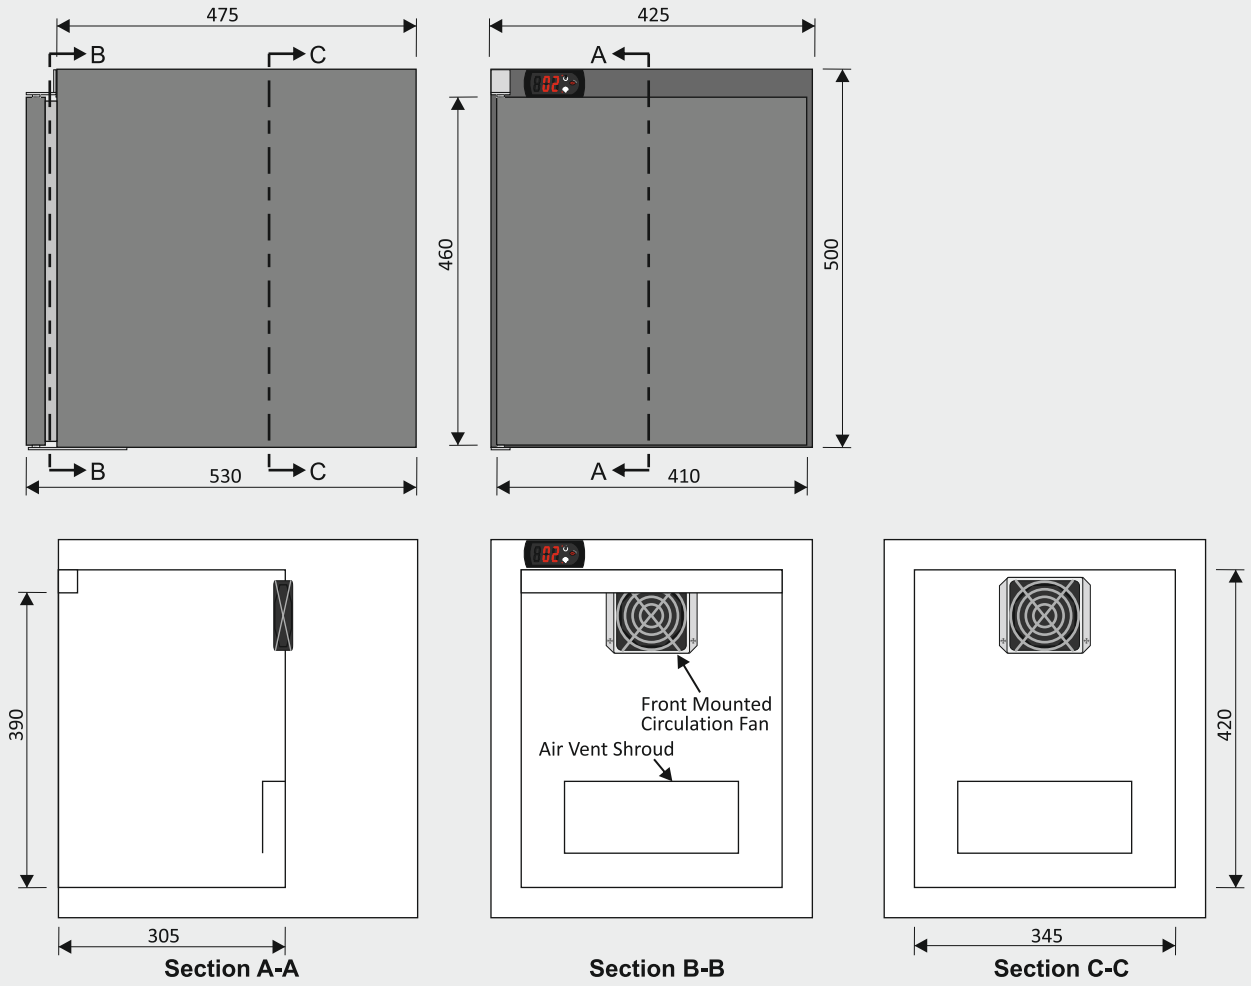

Osborne Refrigerators Ltd have been established at our West Sussex base for more than 60 years and we are the leading British manufacturer of refrigerators designed for the chilling and storage of wine and cold beverages. All our chillers are also suitable for storing foodstuffs. As well as our standard range of cabinets, which are specified by leading breweries, drinks manufacturers and leisure companies across the world, we also produce a range of high quality cabinets designed specifically for the refrigeration of milk for coffee machines.

All our refrigerators use CFC free polystyrene insulation and can be efficiently recycled at the end of their life. They are also available with a choice of refrigerants.

The Osborne range is always evolving, due to our commitment to constantly improve our products and also in response to specific customer requirements. We have built an enviable reputation for the quality and reliability of our refrigerators and we will never stop working to maintain that reputation.

Details

Model CM15 is a compact single door cabinet designed for the safe and convenient storage of milk. It is a development of the MM4M and accepts the same 17L polycarbonate container. Changes include a solid door for greater efficiency, a front mounted temperature controller / readout, a new splash-resistant vent for the interior airflow and a more compact body.

	Model CM15
H (mm)	500
W (mm)	425
D (mm)	530
Nett Cap. (ltr)	39.2
Milk Cap. (ltr)	17
Refrigerant	R600a
Electrical Supply	220-240/1/50-60Hz
Power Rating	65W

Features

Automatic defrost and re-evaporation
Fan assisted interior and condenser
R600a hydrocarbon refrigerant
Digital temperature readout
Painted steel exterior
Stainless steel interior
Accepts 1 off 17 litre milk container
